## DETAILED ACTION

### *Claim Rejections - 35 USC § 112*

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371© of this title before the invention thereof by the applicant for patent.

3. Claims 1-5 are rejected under 35 U.S.C. 102(e) as being anticipated by Meier (U.S. Patent No. 6,041,944).

See Figures 1-4.

4. Claims 1-5 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 97/04850.

***Response to Arguments***

5. Applicant's arguments filed October 9, 2002 have been fully considered but they are not persuasive. Applicants have argued: ***"Specifically, the filter element, as defined in the present application, builds a single cavity, a hollow chamber around the central tube, as seen from Fig. 1 of the present application."*** Additionally, Applicants argue that ***"in the device as claimed in the present application, the central tube is removably arranged inside the metallic sheath element."*** Applicants' claims are not commensurate in scope with the argument being made. Applicants should be arguing how the language of the claims, and not the disclosure, distinguishes over the applied references. Accordingly, these arguments are not found persuasive.

***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
